

The cruise industry **exceeds** international regulations by not discharging untreated sewage into the oceans during normal operations*

*In rare instances where the more stringent industry policies cannot be adhered to, discharges must still be in compliance with the less stringent International regulations.

The cruise industry **recycles 60% more** waste per person than the average person does on land*

Based on US research

The cruise industry will **reduce its fleet-wide rate of CO2 emissions by 40%** by 2030*

*Based on 2008 levels.

The cruise industry **partners with communities and world class organizations** like The Nature Conservancy, UNICEF, World Wildlife Fund, UNESCO, US wildlife Trafficking Alliance and others to **ensure the health of the oceans** and communities we visit

The cruise industry is building reefs, collecting critical ocean data, restoring fisheries and helping **develop best practices** for coastal communities

The cruise industry continues to make a **positive impact on communities around the globe** by sustaining 1,108,676 jobs equaling US\$45.6 billion in wages and salaries and US\$134 billion total output worldwide in 2017

93% of the cruise industry has **eliminated plastic drinking straws** or only provides them on demand. Many are working to reduce or eliminate single use plastics
